Sustainability Supplier Awareness

The Wetac supplier code of conduct sets forth principles on Ethics, People & Labor, Health & Safety and Environment, Quality and Governance & Management Systems. It is made available to our suppliers. We expect our suppliers to replicate these principles further down the supply chain.

Sustainability Supplier Nomination

Suppliers are selected for sustainability evaluations based on a combination of country and category sustainability risk as wel as strategic importance in accordance with Wetac targets .

Sustainability Supplier

Sustainability Supplier Performance Evaluation

Suppliers selected for evaluation are either audited on-site by external auditors or through an online assessment conducted by EcoVadis, our external sustainability rating provider.

Sustainability Supplier Development

All audit and assessment results are thoroughly analyzed and documented. If deficiencies are found, we develop corrective actions together with the respective suppliers to enable them to comply with ethical, social, and environmental principles in the future.
